

The logo consists of two concentric circles. The inner circle is white with the word "Call" in blue. The outer circle is a gradient of blue and green. The word "Clean" is positioned to the right of the circles in a blue, sans-serif font.

Call Clean

Cleanliness is
a platform for success

“High quality cleaning in your business premises ensures an environment where motivation and success can thrive.”

Call clean removes the stress of managing your cleaning contract

In business it's important that your environment is one in which your employees, your clients and your associates feel comfortable, energised and, above all else, motivated. If your premises aren't clean and well-maintained, what does that say about your business?

Call Clean, based in Nottingham, has a reputation that's second to none.

We offer bespoke cleaning packages for businesses of all sizes and a flexible approach that fits around your company's evolving needs.

All our staff are highly trained, friendly and will reflect your company in a positive light. Create the right impression – and create it today. With over 100 years experience and 98% customer retention, we must be doing something right.

- Bespoke packages for blue-chip companies, small businesses or charity organisations
- Flexible approach
- We'll take care of the transfer process from your current supplier
- Representing your company and your brand to the highest standards
- We work on your terms – you don't even have to enter a fixed-term contract

Call Clean the environmental specialists

Call Clean knows that you don't need harmful chemicals to clean to the highest standards. All cleaning products that we use have COSHH data sheets and risk assessments carried out on their usage.

We operate a zero-waste cleaning process and all our dusters and cloths have been replaced with modern micro-fibre technology. They provide improved cleaning performance and reduce the need for harsh cleaning chemicals, while still providing a high level of infection control.

We know how important it is in today's business climate not just to be environmentally friendly, but to be seen to be environmentally friendly. With Call Clean on your team, you can be assured that your 'green credentials' will never be called into question.

- All vacuums are of the most energy efficient on the market
- All plastic chemical bottles re-filled to eliminate plastic waste
- Micro-fibre technology eliminates need for harsh chemicals whilst providing unrivalled infection control

“Whether it's your immediate business environment, or the wider-world, Call Clean does more to make sure we don't leave a mark.”

“How many other companies give their clients point of contact with the company directors?”

This is our commitment to problem resolution of the highest order.”

One point-of-contact. A million reasons to call us.

Call Clean is dedicated to providing extremely high levels of customer service. While we pride ourselves on the personal approach; and place great importance on giving all our clients a person on the end of the phone, rather than a machine - we have invested heavily in technology to ensure that every contact with Call Clean is a positive one for our clients.

Call Clean is powered by the award winning Netsuite CRM System. This Customer Relationship Management Software tracks all our communication and service levels and eliminates any room for complacency.

In the unlikely event that a problem isn't solved at first point of contact, it will be reported to the company directors who will take appropriate action.

Why not get in touch with us TODAY.

- Car Dealership cleaning experts
